
Dr. Khaled Al Mohammad

Business Growth & Development consultant
Strategic Marketer

Dr. Khaled Al Mohammad

About

With over 18 years of experience in the Gulf Cooperation Council (GCC), the Middle East, and Europe across various sectors, I work with companies to rebuild their growth models from within. This involves gaining a deep understanding of how customers make purchasing decisions and translating this understanding into actionable, practical systems.

What I offer is not just traditional marketing activity, but the design of an integrated growth system that begins with

- Redefining value
- Improving market positioning
- Building effective customer acquisition channels
- And linking marketing performance to measurable financial results

Professional experience

Experience in the following sectors :

- Consumer Goods (FMCG)
- Healthcare (hospitals and medical centers)
- Cafés, food&beverage (F&B)
- E-commerce
- Training and education

The principles of growth are the same... but implementation varies depending on the context and the market.

Strategic Growth & Business Development Services

1. Brand Launch Strategy

Launching brands from the ground up through:

- Market research
- Consumer behavior analysis
- Brand positioning
- Pricing strategy
- Market entry strategy
- Go-To-Market Strategy

2. Market Expansion & International Growth

Expanding into local and international markets through:

- International exhibitions and trade shows
- B2B networking
- Commercial expansion strategies
- Digital marketing
- Distribution channel development
- Market penetration strategies

3. Private Label Development

Developing and launching private label businesses through:

- Brand identity development
- Product development
- Production line sourcing
- Strategic partnerships
- Sales and distribution channel development

4. Business Growth System Design

Designing integrated business growth systems including:

- Sales systems
- Marketing systems
- Operational optimization
- Customer journey design
- Conversion optimization
- KPI development and performance systems

5. Consumer Psychology & Buying Behavior

Analyzing consumer behavior and engineering purchasing decisions through:

- Customer Journey Mapping
- Pricing Psychology
- Offer Structuring
- Brand Perception
- Conversion Optimization

6. Franchise & Scalability Strategy

Transforming businesses into scalable franchise models through:

- SOP development (Standard Operating Procedures)
- Operational structuring
- Customer experience standardization
- Scalability systems
- Franchise model development

7. Executive Consulting & Strategic Advisory

Working directly with executives and business owners on:

- Strategic decision-making
- Business repositioning
- Growth management
- Commercial transformation
- Revenue model restructuring

Collaboration Models

I work with organizations through flexible engagement models tailored to their stage of growth, internal capabilities, and business challenges.

- **Strategic Consulting:** Working directly with executive leadership teams to redesign growth models and guide strategic marketing and commercial decisions.
- **Internal Growth Leadership:** Rebuilding growth systems alongside internal teams across marketing, sales, and operations to establish scalable and sustainable performance frameworks.
- **Execution Under Direct Supervision:** When required, my team supports implementation in areas such as marketing, campaign management, and content creation under my direct supervision to ensure consistency and quality.

Success story 1

Some professional milestones are not measured by the award itself, but by the journey behind it and the impact created for the market, the clients, and the team.

Today, I am proud to celebrate a meaningful professional milestone as AI Brains received the award for **Best AI Supporting Project** at the Artificial Intelligence and Institutional Excellence Conference.

I had the honor of contributing to this journey in my role as a **Business Development and Marketing Consultant**, following an in-depth study of the market's need for AI projects that go beyond ideas and truly reflect real-world challenges through practical, measurable solutions.

Together, we worked on **transforming the concept** into a clear-value project, market-ready, impactful, and aligned with the company's vision for innovation and excellence.

Proud to be part of an achievement that proves business development is not just about plans, and marketing is not just about visibility. It is about **creating value, building impact**, and **turning opportunities into results** worth recognizing.

Success story 2

Attractive Smile Medical Center – Sharjah

A small clinic that was transformed into a fully integrated medical center

The Challenge:

- A small clinic with limited capabilities
- Narrow range of services
- Heavy reliance on individual effort

The Transformation:

- Expanding the range of services
- Building a marketing system with defined client journeys, not just advertisements
- Organizing operations in a way that supports scalable growth
- Redesigning the patient experience

The Results:

- Transformation into a fully integrated medical center
- Accurate growth reflected in patient inquiries and appointment requests
- Achieved fully booked appointments for 12 consecutive days

Success story 3

Bloom — Perfect Foodstuff Company – Amman

Redesigning a growth model from scratch

The Challenge:

- Weak presence in the retail sector
- Lack of activation of digital sales channels
- No clear brand history at the point of sale
- Operational suspension during the fifth hour of the evening
- Losses due to products nearing expiration

The Transformation:

- Expanding from 18,000 AED to 40,000 AED in the first quarter
- Rising to an average of 65,000 AED monthly
- Opening stronger relationships with high-end retail outlets
- Opening new markets through the Private Label model
- Strengthening the company's presence in the B2B sector
- Opening the first point of sale (kiosk) in malls, making the model replicable

The Results:

- Transforming relationships into profitable ones
- Opening new markets through the Private Label model
- Strengthening the company's presence in the B2B sector
- Opening the first point of sale (kiosk) in malls, making the model replicable

Success story 4

Bin Abdan: Distribution and Food Equipment Company – Dubai

From local distribution to regional expansion through private labeling

The Challenge:

- Lack of channels for organizational expansion
- Weak investment in the Private Label model
- Heavy reliance on the local market

The Transformation:

- Activating a model with specific strategies with clients
- Building B2B relationships capable of transitioning to long-term contracts
- Guiding marketing toward global expansion, not just awareness in the commercial sector

The Results:

- Opening new markets in: Canada – Oman – Kuwait – Saudi Arabia – Libya
- Converting relationships into active contracts
- Enhancing the company's presence in the business sector

Success story 5

Le Patchouli Café – Abu Dhabi

From a traditional café to a scalable Lifestyle brand

The Challenge:

- Work of high quality but no strong brand identity
- Weak presence and unclear commercial identity
- Bounded expansion
- No clear model for franchising

The Transformation:

- Redefining the project as a coffee shop... not just a Lifestyle experience
- Rebuilding a complete Lifestyle commercial identity
- Designing an experience that matches the client's taste
- Developing a scalable and franchise-ready model
- Building an operational model that is ready for expansion and franchising

The Results:

- Expanded to 11 franchise branches
- Built a scalable and sustainable model for expansion
