Dr. Khaled AlMohammad

Executive Corporate Trainer |
Business Growth & Development Consultant

Executive training built on 18+ years
of real-world business experience.

Executive Summary

I bring more than 18 years of experience in business management, business development, consulting, and training across the United Arab Emirates, the Gulf region, and the Middle East.

I have worked with companies and institutions across multiple sectors on growth strategies, business repositioning, improving marketing and sales systems, designing customer journeys, and building business models that support growth and scalability.

In my training programs, I combine academic methodology, consulting experience, and executive practice. My approach goes beyond presenting concepts, moving instead toward case analysis, decision-making, and the design of tools and systems that can be applied directly in the workplace.
